NITROGEN FOR ORGANIC PRODUCTION

Plant Based Water Soluble Nitrogen

GROWER'S SECRET NITROGEN (GSN14) is a water soluble nitrogen product derived from soy protein hydrolysate.

Use in organic and conventional production to provide nitrogen to help plants grow quickly, increase seed and fruit production, and improve plant quality and appearance. GSN14 can be applied as a stand alone product or in blended combination with most registered products.

Derived from soy protein hydrolysate

- Micronized so that more of the nitrogen is available to the plant, more nitrogen gets absorbed
- 100% water soluble
- No odor to a light ramen smell, pleasant to work with
- Does not attract pests, rodents, insects or animals
- Essentially salt free unlike other sources of nitrogen
- When used according to directions will not burn crops and provides a quick green-up
- Works under cool and hot temperature conditions
- Apply as a liquid
- Can be applied in organic and conventional field situations
